October 12, 2006

Dear Mr. Mazzoni,

I just wanted to say thank you for lending your time and expertise to the Long Island National College Fair on Sunday October 1, 2006. Your 2 seminars on NCAA and Athletic Issues were both packed and the feedback from your attendees was outstanding.

I certainly hope that you enjoyed the day, and I invite you to be part of our Speakers next year if you like. I must admit that the setting in which you presented was less than desirable, and that using a microphone in a make-shift room in the lobby of the Nassau Coliseum is not what either of us had in mind. However, I was grateful to you for your flexibility and willingness to make the situation positive. As I viewed your powerpoint presentation and listened in on the workshops, I can certainly say that you did coordinate two very effective and informative sessions.

It is difficult to gauge the impact we have on students and families through these presentations. All I can say is that so many parents rely on our seminars for vital information as they make very tough decisions about their child's future.

I know what we do is valuable, and I hope we can always do as good a job in helping as we did this year. So on behalf of all those you served with your NCAA seminar, I thank you.

Yours Very Truly,

Frank Muzio

Wantagh High School
